Economists working in the field of economic dynamics, growth theory, and international trade are invited to submit papers or abstracts for presentation at the *DEGIT - XVII* Conference. Papers focusing on mathematical modeling of economic dynamics, on problems of equilibrium growth and on models of large trading economies are welcome. The roles of financial stability, long-term time consistent decisions, global and regional trade patterns, foreign direct investment, endogenous fertility and population growth, and international governance are of particular interest. Contributions in other specialized topics, such as monetary growth models, market structure and economic development are also welcome. Both theoretical and empirical papers will be considered for presentation at the conference.

Confirmed keynote speakers:

Costas AZARIADIS, Washington University, St. Louis, USA  
Theodore PALIVOS, University of Macedonia, Greece  
Thanasis STENGOS, University of Guelph, Canada

This conference is a sequel to the *DEGIT* conferences held in Denmark (1996), Hong Kong (1997), Taiwan (1998), Tilburg (1999), Rome (2000), Vienna (2001), Cologne (2002), Helsinki (2003), Reykjavik (2004), Mexico City (2005), Jerusalem (2006), Melbourne (2007), Manila (2008), Los Angeles (2009), Frankfurt (2010), and St. Petersburg (2011).
